her companion; "but it's rather cool

Blaine, Logan and Ogleeby. THE New York Times, of December 28, 1871, said: "We believe that General Schurz has no claim whatever to public confidence or respect."

ALL over the country the Democrats are going upon the principle of "claiming everything." No matter how ridiculous the claim may be, all of them-big and little-have been instructed to swear it is so.

Ar the Vermont election the total vote cast was 63,000, of which the Democratic ticket received only 19, 400, and, out of 197 members of the state house of representatives, the Democrats have elected 23, or about one in nine. The Democratic newspapers pretend to regard this as an encouraging indication of the result in November.

THE Centralia Daily Sentinel pub lishes a personal letter from General Richard J. Oglesby, in which he says: "I am a candidate for Governor only. I am not a candidate for United States Senator. I do not want that office. I want to be elected Governor and serve the full term out. I am running on the Republican platform, plain and simple, and on no other, and am bound by no

Chicago Inter Ocean: The Demoorate seem just now particularly anxious to find some one who can "raise h-ll in Illinois." All search should stop short with Cartor Harri son. He is fully equal to the demand, but it will be at the expense of the party he heads. By the way, what will be left of Carter politically after be has been used as a door mat by Uncle Dick Oglesby? Now that he has learned the trick of getting out of a circus by the back door he may bave a hint how to crawl from under the political canvas.

Bonony declares the Free Trade Club of London: "Let it be understood once for all that the salvation of England depends upon the destruction of American manufactures, and that the only way in which American manufactures can be destroyed is by free trade." Grover Cleveland is for free trade, as is Henry Watterson, Wm. R. Morrison, Thomas A. Hondrigke, the editor of the Decatur Review, and the vast majority of the big and little Democrats all over the country. They are, therefore, if their London confrere is to be believed, in favor of the destruction of American manufactures. How do you like it, American workingment

The death of a United States Cab inet officer during his term of office has been a rare occurrence in this country. Webster died while Sec retary of State, and two Secretaries of War- Upshur and Rawlins - and two Postmasters General-Brown and Howe-have died while in office Judge Folger is the first Secretary of the Treasury who has died while holding that office. Assistant Secretary Ocon will be acting Secretary until the President shall appoint Secretary Polger's successor.

What terrible straits the local Democratic bosses are being put to in their efforts to make a big show on Tuesday next? Soliciting a Republican to act as chief marshal of the day, trying to hire members of the Blaine and Logan club to carry torohes, and such other last resorts as desperate men are often driven to. Why wouldn't it be a good stroke of policy for the Republicans to hire out a few hundred of their torchbearers, in order to help the Democrats out, and replenish their own treasury at the same time? The money thus obtained might be used on election day to buy Democratic votes, which, according to the oftrepeated charge of the Review, are for sale regularly at every election. By adopting this scheme the Demoorats would be enabled to make a much more respectable showing than

Bloody Ending of a Feud of Long Standing in Vicksburg.

Captain Joshua W. Bourne Seeks to Cure His Domestic Infelicity By Ra- i. moving the Supposed Cause.

A Duel on the Street in Which Both Men Fall Mortally Wounded.

Vicksbung, Miss., September 6 .-About a quarter before twe!ve o'clock yesterday Washington street in the vicinity of Arthur Jacob's store was the scene of an intense excitement. A bloody and turilling tragedy, resulting in the of Captain Joshua W. and the mortal wounding of James F. Metzler, occurred. The impromptu duel-for such it waswas not unexpected, and when the rapid pistol firing was sheard, and before the cause of it was definitely ascertained, many in the vicinity remarked that it was Captain Bourne and Motzler. Trouble has long been browing between these men, and it culminated in the bloody work of yesterday. ORIGIN OF THE TROUBLE.

The beginning of the trouble between the two men dates far back in the past There has been trouble between Captain Bourne and his wife, and two sults are now pending, one for divorce and one for possession of the children. Captain Bonne, whether justly or not, has held Metzlor responsible for his domestic infelicity, and this it was that led to the bloody affair of yesterday. Asstated above, the two men have been at outs for some time, and both have outs for some time, and both have scomed to expect and dread just such an affair as occurred yesterday, as they seemed to shun each other.

They met however, yesterday, and an eye witness gives the following account of the terrible scene that followed: Metaler was standing on the aldewalk on the west side of Washington street. He was alone, or at least was not talking to anyone. Bourne approached, but did not seem to notice his arch-enemy until withlu probably fifteen feet of him. Suddenly he raised his eyes and the hatred of years seemed to cu minate then; and there. Metzler's right side was towards Bourne and he dld not see the latter. Bourne, quick us a flash, pulled his revolver and, without a word fired, the ball passing through Metzler's bowels and body, making, it is thought, a mortal wound. Metzler then retreated into Arthur Jacob's store, Bourne following and firing rapidly. Atter Metzler got into the store he got behind the counter, drew his pistol and commenced returning the fire. Bourne continued to shoot and advanced on Metzler until they clinched, both firing until both pistols

were emptiod, when they were seperated. HIS WIFE AND CHILDREN. Captain Bourne received two wounds, one in the left breast a short distance above the heart, and the other in the ab domen about two inches above the navel. Captain Bourne requested that Father Picherit and his wife and children be she had sent her children, and asked what she had better do. She was advised to go to her husband, by all means, and Mrs. Metzler, the mother of Jan Metaler, also told ber she should most certainly go to him.

BOURNE DEAD. Captaia Bourne died at five o'clock last vening at the La Madrid House, where to had been taken, without seeing his vife he loved to death. It was a pillable and touching sight to witness Captain, Bourne's two little children sitting on the floor by the side of their dying father. The sympathy of the cotire community is undoubtedly with Captain Bourne. Mrs. Bourne was formerly Miss Mary Mabin, of this county, and married Captain Bourne shortly after the war. Captain Bource has been Chancery Ciers of this county, and has occupied other high official positions.

METZLER'S WOUND. After the shooting Metaler was arested, but when found to be badly hart was conveyed to the residence of his father. The ball which is thought to have made the mortal wound, was extracted from the body of Metzler. At 6 p. in., physicians stated that he could not live through the night.

DISASTER AT PREMONT, NEB. Collapse of a Grand Stand, Injuring S xtv-four Persons.

not expected to live. About thirty are very seriously hurt, and the rest es-caped with sprained ankles and vith sprained ankles and bodies. The cause of the HENRY L. NELSON, Private Secre-

tary of Speaker Carliele, writes to the Boston Herald that "there is no real comfort in being such a workdoubt of Mr. Cleveland's position on ingman the tariff. He is as thoroughly in he wrote letters to New York members of Congress urging them to vote with Mr. Morrison, both on the question of consideration and on the motion to strike out the enacting ot herwise on Tuesday night, and the clause of the Morrison bill. At least Republicans would accumulate a fund one vote, and perhaps more, was with which to pay for the votes that gained for the bill by these letters.

Mr. Cleveland is as aggressive against protection as any of the men who made Mr. Carlisle Speaker."

the beautiful grounds of Mr. and Mrs. J. C. Lake by the Social Union of Stapp's Chapel was attended by about 250 people and proved a big success in every respect. The spacious lawn was brilliantly illuminated by a lavish display of Chinese lanterns and two locomotive headlights tastefully arranged, while here and there hung a number of illuminated signs locating the refeshment tables. The piazza of the residence was euclosed with white mosquito-bar material and on the lawn in front was an abundance of chairs for the accommodation of the company. During the evening the following programme was observed:

coinshire. J. Ingelow
Miss Frances Shellabarger.
Pinnists, Misses Nellio Dustman and Ross
Judson.

Owing to illness Mrs. Oakes did not appear. The programme was given from the piazza and was richly enjoyed, by the company. The refreshment tables, over which the ladies presided with charming grace, were liberally patronized, the net proceeds being about \$100. Later the G. A. R. band gave the company a serenade, and Mrs. Lake, who was the life of the party, invited the musicians inside the enclosure and gave them a big treat, in return for which the band gave them more fine music.

TEN days ago Mrs. W. B. Chambers, an enthusiastic Republican lady, decided to give the Republican Escort club a surprise by presenting Ithem with an elegant campaign banner. It is nearly finished, and will be formally presented within a few days. The Republican ladies are always abead.

A copy of the Carmi, White county, Times, of Aug. 26, is before us. The members of the Teachers' Institute held at Carmi passed resolutions commending their instructors, Mr. Gastman and Miss Eila Bear, of this city. The Times says:

The members were enthusiastic in their endorsement of Mr. Gastman and Miss Bear, and all went away feeling they had been amply rewarded for their time and money, and with renewed energies, to put into practice the many excellent matheda. money, and with renewed energies, to put into practice the many excellent methods and suggestions given by that experienced only superintendent, Mr. E. A. Gastman. Too much cannot be said in praise of Miss Bear's work, and it is an unfortunate thing that every mother in our city and and all others who had the opportunity did not see her work. Primary teaching is not well understood by our teachers generally, but their enthusiasm over the generally, but their enthusiasm over the work of this happy little woman showed them to be of that noble class, who, being convinced of error, hasten to retrieve the past by vigorous and unrelenting efforts

was called out. He made his first speech to the club, and it was received with general approval and loud applause. The Captain, who is a fluent talker and a man well-informed in public affairs, made a splendid impression. He gave up most of his time to an entertaining and instructive discussion of the tariff question, in the course of which he exploded the views on this subject expressed by Judge Nelson in a speech recently at Cerro Gor-

Mr. E. P. Vail, Republican nominee for state's attorney, was next called upon. He responded, and delivered a ringing speech, showing that the democratic party had always been a party of aristocrats, and that when in power it had never done anything for the laboring man. Mr. Vail massed his charges against the democratic party in a few clear statements based on the recorded history of the country, and then proceeded to show that the Republican party had always looked to the interests of the whole people and worked to better the condition of the laboring classes. That it had been faithful to this trust was shown by the advantages the working men of this country have over the slave-ridden laborers of foreign countries. In America with ber have over the slave-ridden laborers of foreign countries. In America with her protective system a working man gets good wages, lives well, clothes himself and family decently, and in a few years can save enough to buy a home of his own. This can be done in a few years by a little economy. Under the Bourbon free trade, system it is clear to anyone

THE HARTS MEETING. D. H. Harte, of Lincoln, prohibition candidate for representative in this district, kept his appointment at the court house last night. Prayer was offered by Elder Tyler, and A. F. Smith, in a landatory speech, introduced the speaker. There were about 75 persons present, 25 of whom were ladics.

The speakers at the meeting at the Democratic headquarters last night were Cassius C. Clark and Judge Nelson, and they had a fair-sized crowd present to hear their remarks. There was little enthusiasm manifested, except when the speakers heaped almse on the party in speakers heaped almse on the party in power, when some of the mossbacks fairly yelled themselves hoarse. The Demoratic ladies will present the young men's club with a banner. They doubtless got news of the fact that Mrs. Chambers and other Kepublican ladies were on the eve of doing the same thing for the Republican escort club, and so they felt that they must do something or be dreadfully humiliated.

Baggage Agents, which held its semiannual convention at the Quiney House on this city list work mulo waise and gengible move, when it passed a resolution, to place posters at all stations requesting passengers to have then har-gage plainly marked with their names and permanent address. When it is and permanent address. When it is contemplated that hundred and even thousands of pieres of unclossed bug gage annually find then was to the aggage-tioms of the great ruleouls of the country, and that, owing to the carelessness and negligence of present gors, a large proportion of it can mesor be returned to its rightful owners (the Kansus City, Fort Scott & Gult Lail road will sell in Sentember over two hundred pack izes of just such stuff apt illustration of the above) it will readily be seen that this arrangement must oventually be the means of pre-senting much trouble and amoj ince not only to the rulio ds, but the traveling public as well. On February 1st, of this year, there were unclumed. on the transport than companies' bands of the United States an estimated number of 130 (00) pieces. Cilculating that two per cent of these were unchecked and unmarked it leaves 2,612 pieces on which the chanc s of delivery are very uncertain [This estimate is very low Should be two per cent at least —En] Said one general baggage agent to our reporter. I think this move will save reporter I think this move will save a great deal of trouble to passengers. Another one said. 'We shall, of course, post notices at all stations requesting pussonguly to mark then buggige, and I think they will very generally comply with the request? Still another one said Why, if you could see the piles and stacks of timeks that accumulate, and few of them having anything to show where or to whom they belong, you can leadily believe that this movement will be a mighty good thing for the traveling public. We understand that the Kansas City Fort Scott & Gulf Railroad and the Kunsas City Springhold & Memphis Radioad have already posted their

stations per the resolution, and make station agents are supplied with neatly printed eards and tags for the purpose of accommodating passengers who are not provided with material. A charge stations per the resolution, and that of not more than five cents each will be made by baggagemen which amount is so small when the additional security afforded is taken into consideration, that no one should heatate. The fretories of the country are turning out thousands of trunks exactly alike, and in the rush and confusion generally attending the checking of baggage it is a great wonder that more errors me not made.
